NATIONAL FOOD MUSEUM

Viewing the World Through Food

A Vision for the Future

Welcome to the National Food Nuseum

The National Food Museum's interactive exhibits and innovative programming explore everything about food from the history of the human diet to roles in movies and TV shows to human health to farming's effects on climate—all in a fun environment.

The Museum spurs visitors to see food in a new light, inspires them to make better-informed dietary decisions, and involves them in helping solve some of the world's most pressing problems.

A Tale of Two Challenges

The Museum serves as a beacon, spotlighting the profound influence of diets and farming on both health and the environment.

Taste, joy, nourishment, sociability—there's so much to celebrate about food. But we also need to recognize that American diets have contributed to the tripling of obesity rates since 1980 and to the 500,000 annual diet-related deaths due to heart disease and other chronic diseases.

Also, the global food system, especially the raising of cattle, generates as much as one-third of the greenhouse gases that are heating up our planet.

However, the Museum does not just decry serious problems. It is also a *solutions* hub, suggesting personal actions and policy measures that would promote health and protect the environment.

Vision

A world where food and how it is grown contribute to healthy people, a sustainable planet, and a more vibrant culture.

Mission

To celebrate and explore the transformative power of food to enrich our lives, nourish our bodies, and protect our planet.

Values

The core principles that guide our actions and direct how we achieve our Mission and Vision.

Core Values

Empowerment

We encourage our visitors to improve their health, community, and planet.

Sustainability

We are committed to sustainable practices, from stocking our café with healthful foods to minimizing waste and energy consumption.

Scientific Integrity

The museum's exhibits, programs, and choices are based on science.

Dialogue

We foster a community of diverse stakeholders who share a passion for food, culture, health, and the environment.

Innovation

We think creatively about our relationship with food and encourage innovative problem-solving to address challenges.

Diversity, Equity, Inclusion

We collaborate with people of all skills and backgrounds to create experiences that are accessible to all.

Fun!

We create a joyful environment that mirrors the joy of eating delicious meals with family and friends.

Exhibits

Visitors will be captivated by immersive and interactive displays that decode the complexities of food systems.

Primary Exhibit Audiences

- Children Ages 8-14
- Families
- Informed Public
- Policy Makers

Themes and Topics

Themes

Deliciousness

Highlighting the fun of food and the exotic delights at restaurants

Health

Investigating the links between diet, health, and disease

Justice

Shedding light on the struggles faced by low-income consumers, food-chain workers, and farm animals

Climate Crisis

Gaining insight into the impact of our food choices on climate change and other environmental concerns

History & Anthropology

Revealing the interplay of agricultural and cultural traditions

Industry

Exploring the consequences of industrial food systems on climate, diets, and health

Culture

Examining the influence of family,, heritages, and media on diets

Policy

Explaining how government actions influence what shows up on our plates

Topics

- Food, Farming, Global Warming
- Food Packaging: From Plastic to Bioplastic
- Food Laws: Sausage-Making on Capitol Hill
- History of the Human Diet: 15,000 B.C.E.-2100
- · People of Color: Authors, Chefs, Scientists
- Eating at the White House: 1789-2024
- Pathogens, Food Additives, Contaminants

- The Role of Food in Religion
- Food and Art
- · Booze: The Pleasures and the Sorrows
- Foodways of Nearby Ethnic Communities
- Kitchens, Cooking Gear, & Cookbooks Over the Centuries
- Diet, Health, and Chronic Disease

- Food Comedy in Movies and on TV
- · Global and Domestic Hunger
- Agricultural Research and Food Technology
- Obesity Crisis
- The Science of Cooking
- The Enormous Costs of Wasting Food

INTERPRETIVE FRAMEWORK

Floor Plan

The National Food Museum will make its home in a 60,000-square-foot facility.

CORE AND TEMPORARY EXHIBIT GALLERIES

Over 25,000 square feet of exhibition space engage, delight, challenge, and inform visitors.

LOBBY AND EVENT SPACE

A space for welcoming visitors, small displays, and special events

EDUCATION SUITE

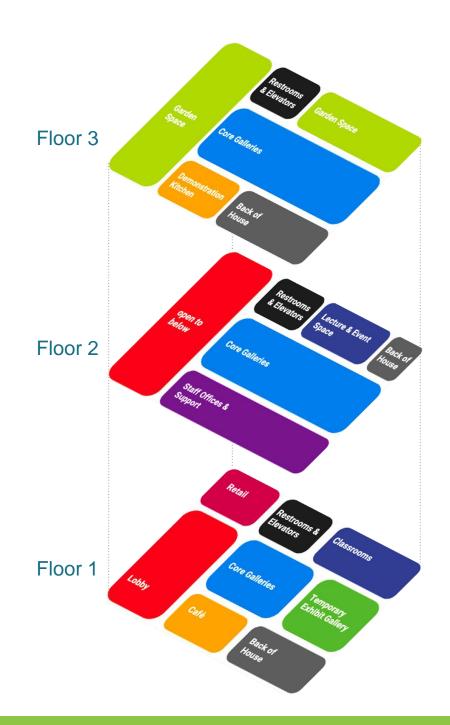

Dedicated classrooms and a demonstration kitchen

CAFÉ AND RETAIL

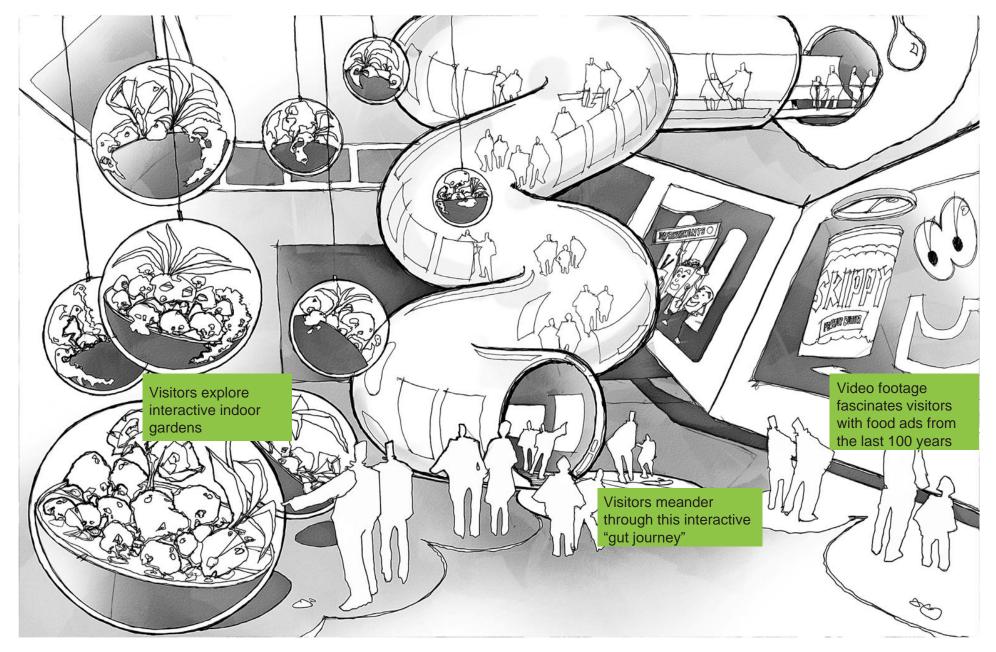

The café will offer scrumptious meals and snacks. The store will feature cookbooks, kitchen gadgets, clothing, novels, and non-fiction books.

GARDEN

Rooftop and indoor gardens encourage home gardens and a love of nature.

INTERPRETIVE FRAMEWORK

Programming

The Museum's public engagement events and online resources encourage critical thinking and a deeper understanding of food issues.

Program Audiences

- Educators & School Groups
- Underserved & Underrepresented Communities
- Seniors
- Ethnic Communities
- High School & Collegeage Students
- Foodies

Operations & Business Model

Annual Budget

The Museum will operate with a \$5.6 million annual budget.*

* Creating a virtual (online) version of the museum will cost \$300,000 over 2024-2025.

Strategic Roadmap The Path Forward

Our strategic goals are a roadmap for bringing the organization, the facility, and our programming to life. Our challenges are to:

- Expand the Board of Directors
- Engage the Advisory Council
- Reach Our Phase II Fundraising Goal
- Hire a Staff Leadership Team
- Search For and Secure a Site
- Initiate a Capital Campaign
- Develop Content and a Roll-Out Strategy

ABOUT US

Board of Directors

MICHAEL F. JACOBSON, PHD Museum Founder and Nutrition Activist

ROBERTA BASKIN Nonprofit Director & Former Investigative Reporter DAN BUETTNER Award-winning Blue Zones author

TOM GEGAX Nonprofit Leader, Former Businessman

SUZANNE HESS Health Advocate SARAH A. KLEIN, JD, MA Consumer/Food Safety Advocate

TAMBRA RAYE STEVENSON, MPH, MA Founder/CEO, WANDA: Women Advancing Nutrition, Dietetics, and Agriculture

Museum Advisory Council

Honorary Co-chairs: DAN GLICKMAN & ANN VENEMAN, Former U.S. Secretaries of Agriculture

SHERYLL DURRANT

Just Food, Board President

RON ESTRADA CEO, Farmworker Justice

JESSICA FANZO Professor of Climate; Director of the Food for Humanity Initiative,

DAISY FREUND Vice President, Farm Animal

Columbia Climate School

Welfare – ASPCA JOHNELLA HOLMES Executive Director, Kansas Black

Farmers Association

ANGELA HUFFMAN

Co-founder and Vice President, Farm Action
